MAKE YOUR OWN MERMAID TAIL!

WHAT YOU'LL NEED:

- 2 X Bath Towels (Thats it!)

INSTRUCTIONS:

1. Place one towel behind the mermaid so that the short side of towel is horizontal to waist line. Depending on how big your mermaid is you may need to fold your towel over before starting (as shown in pic)

2. Place the second towel in the same position at the front of the mermaid.

3. Twist bath towels around the legs and create the fins with towel ends.

SIMPLE AS THAT!
